Digital transformation leaders

Siim Sikkut

Former Government CIO, Estonia, and current Managing Partner at Digital Nation

[modal_popup_box btnalign="center" titletext="Siim Sikkut" btntext="Read Bio" bodybg="#14145a"]Siim Sikkut is Managing Partner at Digital Nation, a digital change advisory network originating from Estonia to build future-ready digital societies around the world.

Siim led the digital government and digital policy area in the Republic of Estonia for 10 years, most recently as the Government CIO from 2017 to 2022.

He has been recognized as one of the world's TOP20 most influential people in digital government by Apolitical, and was co-founder of Estonia's groundbreaking e-Residency program.

Siim is the author of "Digital Government Excellence: Lessons from Effective Digital Leaders", a book published globally in 2022.[/modal_popup_box]

Kyriakos Pierrakakis

Minister of Education, Religious Affairs and Sports of Greece

[modal_popup_box btnalign="center" titletext="Kyriakos Pierrakakis" btntext="Read Bio" bodybg="#14145a"]Kyriakos Pierrakakis is the Minister of Education, Religious Affairs and Sports in the Cabinet of Kyriakos Mitsotakis and Member of the Hellenic Parliament since 2023. He is a computer and political scientist.

In 2007 he earned a Master in Public Policy from the John F. Kennedy School of Government at Harvard University and in 2009 a Master of Science in Technology and Policy from the Massachusetts Institute of Technology. He also holds a bachelor's degree in Computer Science from Athens University of Economics and Business. Currently, he is a Doctoral Candidate in Political Science at Heidelberg University.

From 2019 to 2023 he served as Minister of Digital Governance. During his tenure, he digitized and simplified government services through the development of citizen-centric digitals platforms such as *gov.gr*, Greece's single point of access to government services, digital IDs and driving licenses (*Gov.gr Wallet app*), and electronic healthcare and prescription records (*MyHealth app*). As Minister of Education, he aims to build a modern and more inclusive educational system designed to help students unlock their potential.

Kyriakos Pierrakakis was born in 1983 in Athens. He is married and has three children. He speaks English and French.[/modal_popup_box]

Tamara Srzentić

Former Minister of Digital, Media & Public Administration, Government of Montenegro; Leader of the covid19.ca.gov Digital Response, Office of Digital Innovation of the Office of California, Montenegro

[modal_popup_box btnalign="center" titletext="Tamara Srzentić" btntext="Read Bio" bodybg="#14145a"]With over 15+ years of experience in government reform, policy and digital transformation leadership Tamara has developed a global reputation for introducing the culture, practices and technologies of the digital era to help governments better serve the public. Tamara is a tech ambasador, entrepreneur, board director and scholar and is currently advising and supporting government leaders in the USA and Europe in gov tech, tech policy, public administration reform and digital

transformation efforts.

At the core of Tamara's mission has been empowering leaders in government, and driving culture change by introducing mindset, practices and modern digital delivery skills, building teams highly skilled in human centered design, iterative product delivery and empathetic group facilitation. She is a founder of Rebel Alliance, an open civic org that aims to empower public servants in Europe and around the world in their public service modernization and in fostering a culture of openness, learning, risk taking and psychological safety.

Tamara served as the Minister of Public Administration, Digital Society and Media of Montenegro (2020-2022). Under Tamara's leadership Montenegro government reshaped key policies and standards, propelled public private partnerships, saved money, improved services and built lasting capability for innovation and digital service delivery. Previously, over the past two California administrations Tamara championed the course for the priority policy initiatives and digital service and public transformation strategies for the world's 5th largest economy. She has built two startups for the state of California, recruited and cultivated world-class technology talent, and developed critical partnerships that changed how the government delivers services to the public.[/modal_popup_box]

Mark Boris Andrijanič

Former minister of digital transformation of Slovenia. Member of the governing board, European Institute of Technology (EIT), UK

[modal_popup_box btnalign="center" titletext="Mark Boris Andrijanič" btntext="Read Bio" bodybg="#14145a"]Former minister of digital transformation of Slovenia. Member of the governing board, European Institute of Technology (EIT), UK[/modal_popup_box]

Robyn Scott

CEO and Co-founder, Apolitical, UK

[modal_popup_box btnalign="center" titletext="Robyn Scott" btntext="Read Bio" bodybg="#14145a"]Robyn Scott is a mission-driven serial entrepreneur who co-founded Apolitical in 2015 with a vision to build 21st century governments that work for people and the planet. Apolitical is an online network and learning platform used by hundreds of thousands of public servants in 160 countries to gain new skills and find and share best practice. Identified by Fast Company as one of the world's most innovative companies, Apolitical works with universities including Oxford, the London School of Economics and Georgetown to educate public servants on the critical challenges of our time — from climate change to AI.

Robyn serves on the World Economic Forum's [AI Governance Alliance](), she is an ambassador for the Access to Medicine Index and an advisor to the Responsible Mining Index. She sits on the investment committee of 100x, the London School of Economics' impact accelerator, as well as being an investor in and advisor to a number of mission-driven startups. Robyn was named a World Economic Forum Young Global Leader and a Gates Cambridge Scholar. She holds a BSc in Bioinformatics from Auckland University and a Masters in Bioscience Enterprise from the University of Cambridge, where she graduated with distinction.

Robyn is a trusted advisor and thought leader on the public service. Recent speaking engagements include: the [Cog-X]() London Festival 2023, FWD50 Canada 2023 and the [DLD Munich]() conference 2024. She speaks on the topics of AI, climate and 21st century skills in government. Her weekly newsletter is [The Apolitical View]().

Apolitical recently launched the [Government AI Campus](), a bold new programme to prepare policymakers to lead in the age of AI.[/modal_popup_box]

Francis Maude

Founder & Co-Chair, FMA; Member, the House of Lords of the United Kingdom, UK

[modal_popup_box btnalign="center" titletext="Francis Maude" btntext="Read Bio" bodybg="#14145a"]Francis Maude has nearly four decades of high-level international experience in business and government.

As Minister for the UK Cabinet Office, Lord Francis Maude created the world-leading UK Government Digital Service (GDS) to lead whole-of-government digital transformation from the centre of government. With Francis's oversight from 2011-2016, GDS saved over 1.8 billion GBP through spend controls alone with a total saving of 4 billion GBP across all government IT contracts; created GOV.UK, the award-winning, single government online portal; transformed the most-used public services to fully meet the needs of users; and reformed procurement for digital products and services, stimulating the UK tech sector. As a result, the UK was ranked number 1 in the UN e-Government Development Index in 2016. He was also responsible for the creation of the world's first social investment bank, Big Society Capital.

Since leaving government in 2016, Francis has chaired FMA, a practitionerled venture that supports governments to implement reform; to save money, improve public services and build lasting capability. He recently completed a review of the governance and accountability of the British government civil service.[/modal_popup_box]

Diego Molano

Former Minister of Information Technologies and Communications, Colombia

[modal_popup_box btnalign="center" titletext="Diego Molano" btntext="Read Bio" bodybg="#14145a"]Diego Molano Vega is the former Minister of Information Technologies and Communications

of Colombia (2010-2015). Molano created the "Plan Vive Digital", a national technology plan that transformed the Country and led Colombia to obtain in 2012 the GSMA Government Leadership Award. Recognized for his expertise in public management and digital transformation, Molano has been actively involved in harnessing technology to drive socio-economic progress. As Minister of ICT, he has played a pivotal role in advancing Colombia's digital agenda, promoting access to technology, and fostering innovation across the country. Under his leadership, the Ministry has undertaken initiatives to expand internet connectivity, improve digital infrastructure, leapfrog digital government and services, and enhance cybersecurity measures.

He has been a Senior Advisor to McKinsey and Company, the Inter-American Development Bank, and the Wilson Center in Washington DC. He was the Chair and is the Ambassador for its Business Action to Support the Information Society (BASIS) initiative at the International Chamber of Commerce (ICC) in Paris. Molano is also Board Member of Multinational Companies and has been the President of Area Andina, a 60 thousand student university for low-income segments in Colombia, focusing in creating the talent for the digital economy. He also advices startups in Latina America and Europe.

Molano worked in Telefonica (Spain), BellSouth (now AT&T) in the US, and Ascom in Switzerland. He is an electronic engineer and economist from the Javeriana University in Colombia and has an MBA from IMD in Switzerland.[/modal_popup_box]

Pedro Tavares

Former State Secretary for Justice, Portugal

[modal_popup_box btnalign="center" titletext="Pedro Tavares" btntext="Read Bio" bodybg="#14145a"]Since April 2022, Pedro Tavares is the Portuguese Secretary of State for Justice, heading the digital policies, both for courts and the registry systems. Previously, he worked as General Coordinator at eBUPi — Simplified Land Digital Registry Mission Unit, the

Portuguese public agency responsible for the expansion of a new cadaster and registry initiative using a digital approach. BUPi won several projects, namely Cities and Territories of the Future by APDC; Best Digital Transformation APDSI; Apolitical Global Public Service Team of the Year — Runner-Up; and OECD innovation best practice mention.

From 2015 to 2020 he was a Senior Advisor at the cabinets of the Minister of Justice and of the Secretary of State for Justice, where he managed different innovation and transformative projects and policies, including a Justice Innovation Lab, transparency and participation projects, or new digital Citizen-centric services. He acted as the Ministry's contact point for the OECD digital policies and for several international projects with the European Commission.

In the public sector, Pedro worked on innovation projects such as the new concept for the citizens' one-stop shops (Lojas de Cidadão), or the Citizens' Portal. He has had different positions focused on digital transformation and innovation, including roles managing digital services, communication, transparency and participation initiatives.

Pedro also worked in the private sector as marketing & innovation director at different IT companies, including PHC Software and Inetum.

Moreover, he was a digital marketing & communications trainer at INA and Lisbon Digital School, and a guest lecturer at Universidade Católica Portuguesa and Instituto Politécnico de Santarém.

Pedro holds a master's degree in Digital by Universidade Nova de Lisboa, a post-graduation in Business Administration by ISEG — Lisbon School of Economics & Management, a BA in Communication Studies by Universidade Nova de Lisboa and an advanced course in Digital Innovation by The University of Chicago.[/modal_popup_box]

Dilia Leticia Jorge Mera

[modal_popup_box btnalign="center" titletext="Natalia Aristimuño Pérez" btntext="Read Bio" bodybg="#14145a"]Ms. Natalia Aristimuño Pérez is currently Director of Digital Enablers & Innovation at the European Commission's Directorate-General for Digital Services. Before her appointment as a Director, she was responsible for the Interoperability Unit. Her past experience combines different Head of Unit positions in the domains of delivering solutions for human resources, decision-making, document and knowledge management. Since she joined the European Commission in 2000, she has been involved in developing user-friendly solutions for public administrations and the European Commission itself. She graduated Deusto University (Bilbao, Spain) with IT background and has a deep knowledge of the business domains she works with.[/modal_popup_box]

Daphnée Nostrome

Director, Channel Strategy, Government of Canada

[modal_popup_box btnalign="center" titletext="Daphnée Nostrome" btntext="Read Bio" bodybg="#14145a"]Daphnée Nostrome is a seasoned change leader with 20 years of experience dedicated to driving the promotion of innovative digital practices. Her expertise spans government, not-for-profit sectors, and community projects.

In her current role as Director, Channel Strategy, Office of Chief Client Experience Officer, Service Canada, she is focused on developing organizational models, growing service design and delivery capabilities and cultivating cultures that facilitate accessible, future-focused service delivery.

Previously, she served as the Director, Digital Talent Strategy, Benefit Delivery Modernization Programme, Service

Canada. She also worked at the Ontario Digital Service, where she was Sr Manager, and Founder of a digital training team that launched record-breaking initiatives.

Previous speaking engagements include FW50, Policy Ignite, GovConnect, NYC[x] Innovation Fellows program (Mayor's Office of the Chief Technology Officer), Haiti Tech Summit, and Diversity in Digital Services.[/modal_popup_box]

Joy Bonaguro

Former Chief Data Officer, State of California and the City of San Francisco, USA

[modal_popup_box btnalign="center" titletext="Joy Bonaguro" btntext="Read Bio" bodybg="#14145a"]

Joy Bonaguro has spent her career working at the nexus of data, design, technology, and policy. Most recently, Joy served as Chief Data Officer of the State of California with an overarching goal to improve government use of data. She established the Office of the CDO along with a suite of statewide data services. Prior to her state role, she was responsible for scaling internal systems, data, and information security at Corelight, a high-growth cybersecurity startup funded by Accel and General Catalyst. Prior to Corelight, she served as the first Chief Data Officer for the City and County of San Francisco, where she pioneered multiple initiatives to introduce data science, streamline data access, improve data management, and boost capacity to use data. Before that, Joy developed technology, cyber and privacy policy across the Department of Energy's National Laboratory System. Her career started in New Orleans with seven years designing and managing the development of information systems to support planning and decision-making for local governments and nonprofits. Joy earned her Master's degree from UC Berkeley's Goldman School of Public Policy and her Bachelor's in Mathematics and Philosophy from Tulane University.
[/modal_popup_box]

Sorin Ducaru

Director, the European Union Satellite Centre, Romania

[modal_popup_box btnalign="center" titletext="Sorin Ducaru" btntext="Read Bio" bodybg="#14145a"]Ambassador Sorin Dumitru Ducaru is the Director of the European Union Satellite Centre (SatCen) since June 2019. He has previously held the position of NATO Assistant Secretary General and Head of the NATO Emerging Security Challenges Division, as well as the positions of Romania's ambassador to NATO, USA and to the UN in New York. He also assumed various positions in the Romanian Ministry of Foreign Affairs (MFA) such as: spokesperson of the MFA, director of the Minister's Office and head of the Directorate for Strategic Affairs. Ambassador Ducaru's professional background reflects a quite rare blend of technical and political studies. He is holding degrees in Applied Electronics & Computer Studies (BS, Bucharest Polytechnic University), Political Science & International Relations (M.Phil, University of Amsterdam) and International Economic Relations (Ph.D, Academy of Economic Studies, Bucharest). He has been intensely engaged intellectually and professionally bridging the technology-policy gap and addressing the impact of technology upon security. Ambassador Ducaru has been also engaged in academic and scientific activity, as associate or guest lecturer at the National University for Political Studies (Bucharest, Romania), NATO Defence College (Rome, Italy), Kennedy School of Government, Harvard University (Cambridge, USA), Leiden University (The Netherlands). He is the Honorary Chairman of the Scientific Board of the New Strategy Center (Bucharest), European Council of Foreign Relations Member, Advisory Board Member of Digital Society Institute (Berlin), the NATO Cybersecurity Centre of Excellence (Tallin), and former Senior Fellow at the Hudson Institute (Washington DC). In 2002, Ambassador Ducaru was awarded the title of "Ambassador of the Year" by the Romanian MFA and, in 2008, the rank of Knight of the National Order "The Star of Romania" by the president of Romania. He is

married and has two teenage children.[/modal_popup_box]

Denise Linn Riedl

Chief Innovation Officer of South Bend, Indiana, USA

[modal_popup_box btnalign="center" titletext="Denise Linn Riedl" btntext="Read Bio" bodybg="#14145a"]Denise Linn Riedl is the Chief Innovation Officer (CIO) for the City of South Bend, Indiana and head of the City's Department of Innovation & Technology where she manages innovation, IT, digital services, data, and CX. Before joining the City of South Bend in 2019, Riedl held a variety of civic technology positions at the local and federal level. Riedl was the Ecosystem Development Manager for the Chicago-based City Tech Collaborative (formerly the Smart Chicago Collaborative) where she led the Connect Chicago Fund, the Chicago Data Collaborative, and the Array of Things Civic Engagement Project. Riedl also worked in the Spectrum Auctions Division of the US Federal Communications Commission and was a Fellow at the Benton Institute for Broadband & Society. Writings include Inclusion of Underserved Residents in City Technology Planning (2018), The Next Generation Network Connectivity Handbook (2016), The Chicago School of Data (2018), and Toward Inclusive Urban Technology (2020). Riedl received her B.A. from the University of Virginia and her M.P.P from the Harvard Kennedy School of Government.[/modal_popup_box]

Nicolas Diaz

Chief Innovation and Data Officer of the city of Syracuse, USA

[modal_popup_box btnalign="center" titletext="Nicolaz Diaz" btntext="Read Bio" bodybg="#14145a"]As the Chief Innovation & Data Officer for the City of Syracuse, NY, Nicolas leads a team of innovators, data-analytics experts, and change makers to improve internal processes and deliver better services to citizens. He is also in charge of building and implementing a long-term data strategy and digital transformation at Syracuse.[/modal_popup_box]

Gemma Schepers

CEO, Smart Mobility at the City of Amsterdam, Netherlands

[modal_popup_box btnalign="center" titletext="Gemma Schepers" btntext="Read Bio" bodybg="#14145a"]At this moment I am working for the Innovation Office (CTO) of the City of Amsterdam. Working in an innovative and vibrant team provides me with the energy to strive for a future-proof, green and resilient Amsterdam. In the CTO, we work with short-term experiments in living labs cooperatively with citizens and market parties. Currently, I commit myself to the digital transition in the field of Smart Mobility with a strong focus on secure data exchange between all stakeholders in the Smart Mobility eco-system. Mobility data is an essential building block to arrive at a livable future city. Mobility generates freedom and does not stop at borders. To create a European, connected, and green mobility network, we must connect the local networks and move together towards a new way of multi-modal travel. In this process, mobility data is vital. Mobility data, however, also entails risks, especially if we start linking datasets on a European scale. That is why I am committed to ensuring privacy and security in this transition so that everyone will soon be able to travel safely, greener, and more comfortably throughout Europe.[/modal_popup_box]

João Luiz Carabetta

Chief Data Officer of the City of Rio de Janeiro, Brazil

[modal_popup_box btnalign="center" titletext="João Luiz Carabetta" btntext="Read Bio" bodybg="#14145a"]João Carabetta serves as the Chief Data Officer for the city of Rio de Janeiro. He holds a degree in Physics and a Master's in Mathematical Modeling from FGV. Carabetta is known for establishing the NGO Base dos Dados in 2020, which oversees a public datalake and facilitates data accessibility in Brazil. His professional journey includes roles as a consultant at the Inter-American Development Bank and as a fellow in the Data

Science for Social Good program. Additionally, he has made significant contributions to the Center for Technology and Society at FGV, merging technology with social advancement.[/modal_popup_box]

Luanna Sant'anna Roncaratti

Digital Government Deputy Secretary at the Ministry of Management, Brazil

[modal_popup_box btnalign="center" titletext="Luanna Sant'anna Roncaratti" btntext="Read Bio" bodybg="#14145a"]PhD in Political Science from the University of Brasília and Specialist in Public Policy and Government Management since 2006, Luanna has been working in the innovation and digital technologies sectorsince 2013. In 2020, she won the Public Spirit Award in the Digital Government category. Currently, Mrs. Roncaratti is the Digital Government Deputy Secretary at the Ministry of Management.[/modal_popup_box]

Alexander Holt

International Ecosystems, Entrepreneurship Division, Scottish Government / Founder & Co-Chair GovTech Global Alliance, UK

[modal_popup_box btnalign="center" titletext="Alexander Holt" btntext="Read Bio" bodybg="#14145a"]Alexander has worked for the Scottish Government since 2014. Between 2015-2019 he established the Scottish Government's CivTech Programme, Europe's first GovTech programme. In that time he won/shortlisted for numerous awards including winning the Leadership Award at the Scottish Public Service Awards. Since 2020 he established and co-chairs the GovTech Global Alliance (formerly the CivTech Alliance) – a global network of similar government teams and that year was named as one of the Top 20 global leaders in GovTech. In 2021, he was listed in World Economic Forum's Agile 50 list – 50 global leaders navigating disruption. That same year, he designed and co-delivered the Alliance's COP26 Global Scale Up Programme which won Apolitical's Global Public Service Team of the Year – Climate

Award, and was shortlisted for two Scottish Public sector sustainability awards. In 2023 he participated in the World Economic Forum's inaugural GovTech Network workshop in Geneva. He is a massive believer in harnessing the power of the entrepreneurial mindset to transform public service delivery and the value gained from cross-border collaboration.[/modal_popup_box]

Janusz Cieszynski

Member of the Sejm of the Republic of Poland

[modal_popup_box btnalign="center" titletext="Janusz Cieszynski" btntext="Read Bio" bodybg="#14145a"]Janusz Cieszynski was responsible for the biggest digital government projects that happened in Poland between 2018 and 2023.

As the deputy minister of health he implemented e-prescriptions, e-referrals and the e-patient service which still holds the record for the most users in Polish e-government history. As Secretary of State and Minister of Digital Affairs he delivered mObywatel – an app which made Poland the largest EU Member State with a fully functional e-id in July 2023. His user-oriented approach was instrumental to implementing a temporary means of identification for Ukrainian refugees which was launched within 3 weeks of the full-scale invasion. Janusz led the MoDA team that successfully negotiated terms with Intel which led to announcement of the first-ever chip manufacturing investment in Central Eastern Europe.[/modal_popup_box]

Kamila Gasinska

Strategic Partnerships Lead, GovTech Lab Lithuania (Innovation Agency Lithuania)

[modal_popup_box btnalign="center" titletext="Kamila Gasinska" btntext="Read Bio" bodybg="#14145a"]Kamila Gasinska is a professional in the field of strategic partnerships and innovation, currently working as the Strategic Partnerships

Lead at The GovTech Lab Lithuania (Innovation Agency Lithuania). The GovTech Lab team works in the public sector and helps governmental institutions to work together with innovative startups and companies in solving the most pressing social and public sector challenges. She joined the team in early 2020, after implementing few successful projects in the Ministry of Education, Science and Sports of Lithuania, focusing on tech solutions to fight bullying at Lithuanian schools. Since then, Kamila has been at the forefront of different national and international GovTech initiatives, working closely with government officials and other stakeholders in both the public and private sectors. Her passion for public sector transformation is driven by her deep interest in improving the quality of services offered to citizens, and as a trained psychologist, she is committed to changing the mindset of public servants to achieve this goal.[/modal_popup_box]

Orlando Rojas

Executive Director at Chile GovLab, Chile

[modal_popup_box btnalign="center" titletext="Orlando Rojas" btntext="Read Bio" bodybg="#14145a"]Specialist in innovation and transformation of public institutions. He is a Public Administrator and Master in Business Engineering and Information Technologies from the University of Chile. He led projects in the Government Laboratory of Chile, currently being its Executive Director. He directed the Fiscal Expenditure Observatory and led the area of business intelligence and studies at the General Comptroller Office of Chile. Professor of Public Innovation at the Universidad de Chile and the Universidad Tecnológica Metropolitana.[/modal_popup_box]

Cintia Smith

Secretary of Innovation and Open Government of the Government

of Monterrey, Mexico

[modal_popup_box btnalign="center" titletext="Cintia Smith" btntext="Read Bio" bodybg="#14145a"]Dr. Cintia Smith is the Secretary of Innovation and Open Government at the Government of Monterrey, in Mexico. She holds a Ph.D. in Philosophy with a focus on Political Science from the Autonomous University of Nuevo León, Mexico; a master's degree in Science with a specialization in Communication from the Monterrey Institute of Technology and Higher Education, Mexico; and a bachelor's degree in Political Science from the Catholic University of Córdoba, Argentina.

She is the author and co-author of publications on political communication and public policy in specialized journals in Mexico, Spain, and Argentina. In 2016, she was awarded the UANL 2016 Research Prize (Social Sciences).

Currently, in her role as Secretary of Innovation and Open Government for the Government of Monterrey, she leads the implementation of open and digital government practices at the local level. Key projects under her leadership include end-to-end digitization of processes and services, the management and exchange system of big data and geospatial data, the open data system, participatory budgeting, and the construction of the Local Open Government Action Plan in partnership with the Government of the State of Nuevo León. She is also a member of the Government Advisory Council of the Open Wallet Foundation.

In the academic sphere, over the course of the current year, she has completed high-level programs such as the "Executive Program on Implementing Public Policy" at the Harvard Kennedy School and the "Bloomberg Harvard City Leadership Initiative." These achievements underscore her commitment to excellence and continuous learning to lead innovative initiatives in the public sector.[/modal_popup_box]

Olga Lucía Alfonso

Director of environmental authority of Tolima (CORTOLIMA), Colombia

[modal_popup_box btnalign="center" titletext="Olga Lucía Alfonso" btntext="Read Bio" bodybg="#14145a"]Master in Business Administration from Universidad Externado de Colombia, specialist in Information and Communication Systems and Logistics Management, Economist.
She has experience in National and Territorial Public Management, specifically in the design and implementation of Public Policies and investment projects in ecosystemic conservation, risk management, climate change, land use planning and public finance issues.

She has extensive knowledge in formulation and implementation of projects of the General System of Royalties, especially in Science, Technology and Innovation and Social Appropriation of Knowledge.

She has served as a leader of major initiatives in the public and private sector, advised the Ministry of Information Technology and Communications on issues of the General System of Royalties in ICT aspects.

She was Secretary of Finance and Secretary of Planning and ICT of the department of Tolima, where she stood out for promoting an equitable, competitive and sustainable department, ensuring the fulfillment of resources with transparency and efficiency.

She was also a member of the board of directors of RAP-E, where she contributed to the construction and structuring of environmental and climate change projects, including the preservation and conservation of moorlands.

She also advised the Mayor's Office of Ibagué and was a professor of higher education, among others.

Since 2020 she has headed the environmental authority of

Tolima, and has been re-elected for the 2024 — 2027 term thanks to her great results. Together with her technical team, she has managed to transform the Regional Autonomous Corporation into an efficient, transparent and close to the people entity, always ensuring the protection and conservation of the department's natural resources.[/modal_popup_box]

Luciano Crisafulli

Founder and CEO of the Govtech Innovation Laboratory of Córdoba, Argentina

[modal_popup_box btnalign="center" titletext="Luciano Crisafulli" btntext="Read Bio" bodybg="#14145a"]Luciano is the Founder and CEO of the Govtech Innovation Laboratory of Córdoba (Argentina), CorLab. CorLab has been a driver of the city's govtech policy, contributing to the transformation of the local public sector and placing the city at the forefront of govtech programs. In CorLab, Luciano successfully led the design and execution of the pioneering Córdoba Smart City Fund, recognised by OECD, CAF and IADB Lab as the first govtech fund in Latin America.

Luciano is an Economist (Universidad Nacional de Córdoba). He holds a Master in Economic Development (Universidad Internacional de Andalucía) and a Master in Political Management (Universidad Católica de Córdoba). He is an undergraduate and postgraduate Professor in Universities of Argentina, Perú and El Salvador, specialising in Economics and Innovation. Also, he is an internationally recognised influencer, sharing insights on topics within public innovation and govtech.

In the private sector, Luciano worked in Alaya Capital, a Latam venture capital firm, and he led open innovation processes for medium and big companies.[/modal_popup_box]

Laura Halenius

Project Director, Competitiveness through data, The Finnish Innovation Fund Sitra, Finland

[modal_popup_box btnalign="center" titletext="Laura Halenius" btntext="Read Bio" bodybg="#14145a"]Laura Halenius is the Project Director of the [Roadmap for a Fair Data Economy project](). She and her team believe that Finland is well placed to seize the opportunities of the data economy by making fair

and sustainable use of data a significant competitive advantage.

Laura has over 15 years of experience in creating social change and communications management. She holds a Master's degree in economics and business administration.

Previously Laura worked as the Senior Lead for social marketing and public relations for Sitra's [IHAN® — Human-driven data economy project](). As the lead of the IHAN project, Laura among other things, developed the concept of fair data economy and policy recommendations in collaboration with stakeholders. She also headed [Finland's national Gaia-X strategy work]().

Feel free to contact Laura if you want to know more about the road map work, fair data economy and its potential as well as sustainable technologies as a future competitive advantage.

Laura's curious mind means she spends her free time reading everything she can get her hands on and spending time with family and friends.

Laura believes that when it comes to making big social changes, collaboration is power. This requires respect for different opinions and dialogue, two of Laura's two guiding lights.

Luis Felipe Monteiro

Former Digital Government Secretary of Brazil from 2018 to 2021

[modal_popup_box btnalign="center" titletext="Luis Felipe
Monteiro" btntext="Read Bio" bodybg="#14145a"]Luis Felipe
Monteiro brings over 20 years of experience in the technology
field, finance, and government digital transformation.

He is currently a Board Member of GLEIF, a Swiss based foundation that plays a critical role in promoting trust and transparency in the global financial markets. As the CEO of Cateno, a leading payments company in Brazil, he was responsible to achieve challenging milestones.

Previously, Luis held the position of Brazil's Digital Government Secretary. He spearheaded the digital transformation of the country, successfully aligning the objectives of senior executives, parliament, policy makers, and digital squads spread through hundreds of government agencies.

Under his guidance, two thousand digital public services were transformed, resulting in the remarkable growth of GOV.BR as one of the world's top five government platforms, serving over 150 million users. During this period, Brazil was recognized by the World Bank as the second most mature country in Digital Government. Widely regarded as an influential figure in the government and digital realms, Luis was honored by the World Economic Forum as one of the world's 50 most influential people revolutionizing government and among the 100 most influential individuals in digital government.

Moreover, his extensive background includes serving as the Chairman of the Board of SERPRO, the largest IT public company in South America, and holding positions on various other boards of directors. With a strong foundation in computer science, Monteiro's educational accomplishments include a master's degree and an MBA in information technology, and executive education programs at Georgetown and Harvard, focusing on leadership, innovation, and digital transformation.[/modal_popup_box]

Technology directors, CTOs, CIOs, CDOs — National

Fernando de Pablo

Digital Office Director, City of Madrid, Spain

[modal_popup_box btnalign="center" titletext="Fernando de Pablo" btntext="Read Bio" bodybg="#14145a"]Born in Segovia, he is a Telecommunications Engineer, member of the Senior Corps of Systems and Information Technologies of the State Administration, Master in Systems Management and Information and Communications Technologies, Executive Master of Business Management by the School of Industrial Organization and Leadership Program for Public Management. Patricia Fanlo

Councilor for University, Innovation and Digital Transformation of the Government of Navarre, Spain

[modal_popup_box btnalign="center" titletext="Patricia Fanlo" btntext="Read Bio" bodybg="#14145a"]She holds a degree in Medicine and Surgery from the University of Zaragoza (2002) and a doctorate in Health Sciences from the Public University of Navarra (2017). She speaks English, German, and French.

She completed a Master's in Medical Direction and Clinical Management from the National University of Distance Education (UNED) in September 2022 and a Digital Transformation course from the Boston Consulting Group at the University of Virginia in August 2023.

She began her professional career as a resident doctor (MIR) in Internal Medicine at the former Virgen del Camino Hospital (2003-2008). Since 2009, she has been working as a specialist in Internal Medicine with a permanent position in the Internal Medicine Service of the University Hospital of Navarra, and since 2012, she has been the coordinator of the Systemic Autoimmune Diseases Unit and the Rare Diseases and Transition Clinic.

Her professional activities have focused on the care, teaching, and research of Systemic Autoimmune Diseases and Rare Diseases. She has undertaken various pre- and post-doctoral stays in the HIV Hospitalization Ward and Nosocomial Infections Ward at the Hospital Clínic in Barcelona, the Transplant Unit of the Pulmonology Service at the Marqués de Valdecilla Hospital in Santander, Zurich (Switzerland), the Rheumatology Unit at the Medical Policlinic in Munich (Germany), the Joslin Diabetes Center in Boston (USA), the Diabetes Summer School in Bologna (Italy), the Unit of Lupus and Vasculitis at Addenbrooke's Hospital in Cambridge (UK), and the AIDA PRECEPTORSHIP at the University of Siena, Italy.

In the academic field, she has published over 100 articles in national and international scientific journals. She has also participated as the Principal Investigator in Navarra in more than a dozen international clinical trials for the treatment of diseases such as COVID-19, Lupus, and vasculitis, and national registries, and has coordinated a national clinical trial for the treatment of severe COVID-19 during the pandemic. She is the coordinator of the Long COVID Registry in Navarra.

She has been an associate clinical professor at the Faculty of Medicine of the University of Navarra (UN) and is a Type 3 associate professor at the Public University of Navarra (UPNA) in the Department of Health Sciences for the 2023-24 academic year. She has won national awards and the VII Senior Grant from the Medical Association of Navarra in 2018.

She has also taught in master's programs at various universities, such as the University of Barcelona. Additionally, she has organized national congresses and meetings in the field of Autoimmune and Rare Diseases.

Finally, she has played a significant role in national and European scientific associations. She has been the coordinator of the Systemic Autoimmune Diseases Group of SEMI (GEAS), president of the Spanish Multidisciplinary Society of Systemic Autoimmune Diseases (SEMAIS), president of SOMYM (the Basque-Navarre-Aragonese-Riojan-Cantabrian Multidisciplinary Society of Rare Diseases and Metabolic Disorders), and is a member of the Spanish Association for the Study of Inborn Errors of Metabolism (AECOM) and the European Vasculitis Society (EUVAS).

In December 2023, she was appointed Minister of University, Innovation, and Digital Transformation of the Government of Navarra.[/modal_popup_box]

Itziar Berrospe

Director of Digital Advancement of the Digital Transformation Directorate of the Government of Navarre, Spain

[modal_popup_box btnalign="center" titletext="Itziar Berrospe" btntext="Read Bio" bodybg="#14145a" caption_url=""]Itziar Berrospe is Head of the Digital Advancement Service in the Department of Universities, Innovation and Digital Transformation of the Government of Navarra. She has a degree in Telecommunications Engineering and extensive experience in public and private sector IT.

The mission of the Digital Advancement Service is to promote the digital transformation of the Navarrese administration based on 3 main pillars — data, people and citizen services.

In the field of data and AI we promote a Data Driven Government. Data initiatives are focused on decision making, the improvement of citizen services, and data-based innovation. We believe data initiatives and AI projects will bring about a substantial improvement in the quality of our digital services, moving the administration closer to citizens and helping to mitigate the digital divide.

In the "people" area, we are promoting and coordinating the Navarra Digital Training and Inclusion Plan, which seeks to provide an efficient response from the Government in terms of Digital Training for citizens and companies.

In the area of citizen services, we are fostering projects to improve citizens' digital experience, increasing accessibility and usability, for instance with the Citizen Folder.[/modal_popup_box]

Adrián Escribano Vitón

Spanish Royal Mint

[modal_popup_box btnalign="center" titletext="Adrián Escribano Vitón" btntext="Read Bio" bodybg="#14145a"]**Studies:**

- **Electrical Engineering** — European University of Madrid.
- **Law Degree** — National University of Distance Education (ongoing studies).

Professional Trajectory:

- **CIO Support Unit** — National Mint and Stamp Factory.

Juan Angel Morejudo

Vicecouncelor of Digital Transformation, Government of la Junta de Castilla La Mancha, Spain

[modal_popup_box btnalign="center" titletext="Juan Angel Morejudo" btntext="Read Bio" bodybg="#14145a"]He holds a degree in Computer Engineering from the University of Seville, as well as an Executive MBA from the Universidad Pontificia de Comillas and various master's degrees in Marketing and Commercial Management, Stock Exchange and Financial Markets and Sales Management.

In the Junta de Comunidades de Castilla-La Mancha, from July 2019 to July 2023 he was General Director of Digital Administration, since July 2023 he is Deputy Minister of Digital Transformation of the Ministry of Finance, Public Administrations and Digital Transformation.

Previously he held management positions at Fujifilm Europe, Ernst & Young, Coritel-Accenture or Roche Diagnostics, professor at ESIC Business & Marketing School and director of the Healthcare Trends Lab at CEU IAM.[/modal_popup_box]

Javier Fernández Rodríguez

General Director of Digital Strategy and AI, Government of Asturias, Spain

[modal_popup_box btnalign="center" titletext="Javier Fernández Rodríguez" btntext="Read Bio" bodybg="#14145a"]Industrial Engineer, Executive MBA from the Instituto Universitario de Empresa (IUDE). Currently, General Director of Digital Strategy and Artificial Intelligence in the Administration of the Principality of Asturias.

He has developed his professional career, for more than 20 years, linked to the ICT sector and the digital transformation of organizations. Evolving from more technical positions,

focused on the development of customized solutions for large corporations, to positions more linked to strategic business management and corporate management. After almost two decades in the private sector, in Telecable, a company of the Euskaltel group, where I was in charge of the Enterprise market, since September 2019, I am in charge of digital services in the Government of the Principality of Asturias, from where the digital transformation of the regional administration is promoted in all its areas.[/modal_popup_box]

Lázaro Tuñón Sastre

Deputy General Director of Open Government, Government of Spain

[modal_popup_box btnalign="center" titletext="Lázaro Tuñón Sastre" btntext="Read Bio" bodybg="#14145a"]Lázaro Tuñón is Deputy Director for Open Government in the Ministry of Digital Transformation and Civil Service. I am a lawyer and economist and I have previously worked in the European Social Fund management authority and the Communication Office of Spain

Prime Minister. We are currently co-creating the 5th National Action Plan on Open Government and we will be focusing closely on the role of new technologies as a tool for better and more open Governments.[/modal_popup_box]

Ignacio Azorín

Digital Strategy Director, Community of Madrid, Spain

[modal_popup_box btnalign="center" titletext="Ignacio Azorín" btntext="Read Bio" bodybg="#14145a"]Ignacio Azorín, currently the Digital Strategy Director for the Madrid region, is an aerospace engineer with extensive international experience in the tech ecosystem, having worked with universities, MNCs, and startups in France, Germany, and Singapore. As an entrepreneur in cutting-edge technology, he has firsthand knowledge of the challenges faced by innovators in terms of commercialization, funding, and market access.[/modal_popup_box]

Elena Liria

Chief Executive Officer of the Agency for the Digital Administration of the Community of Madrid (Madrid Digital), Spain

[modal_popup_box btnalign="center" titletext="Elena Liria" btntext="Read Bio" bodybg="#14145a"]TBA[/modal_popup_box]

María Ángeles Rincón

General Director of Electronic Administration and Corporate Applications in the Department of Finance and Public Administration of the Government of Aragon, Spain

[modal_popup_box btnalign="center" titletext="María Ángeles Rincón" btntext="Read Bio" bodybg="#14145a"]TBA[/modal_popup_box]

José Manuel García Duarte

Chief Information Technology Officer, Government of the Valencian Community, Spain

[modal_popup_box btnalign="center" titletext="José Manuel García Duarte" btntext="Read Bio" bodybg="#14145a"]José Manuel García Duarte holds a degree in Telecommunications Engineering from the School of Telecommunications Engineering at the Polytechnic University of *Valencia*, along with additional studies in Industrial Engineering.

Since 2012, he has served on the governing board of the Illustrious College of Telecommunications Engineers of the "Comunidad Valenciana".

As an ICT expert in technologies applied to Public Administrations, for over a decade, he has worked in multinational companies such as NextiraOne and Dimension Data, now integrated into Nippon Telegraph and Telephone Corporation (NTT). In these roles, he has managed projects for the administrations of the Balearic Islands, Valencia, and Murcia.

In 2017, he was appointed Director of Operations and Engineering at À Punt Mèdia, where he played a key role in its launch and the initiation of new broadcasts.

In 2019, he assumed the role of Managing Director of Information and Communication Technologies (DGTIC) for the Generalitat Valenciana. In this position, he has navigated the challenges posed by the pandemic, particularly in the educational sector and in overall strategic planning.

He is currently finalizing the Strategic Plan for Digital Transformation of the Generalitat Administration, GEN Digital 2025, and preparing for the upcoming period of 2025-2030. This plan emphasizes administrative simplification, generative artificial intelligence, hyper-automation, digital identity, and other emerging technologies. Additionally, he is continuing ongoing projects from the current plan such as Cloud First (evolution towards a hybrid cloud) and Anima (Data Governance and Data Lake).[/modal_popup_box]

Núria Espuny i Salvadó

General Director of Digital Administration, Government of Catalonia, Spain

[modal_popup_box btnalign="center" titletext="Núria Espuny i Salvadó" btntext="Read Bio" bodybg="#14145a"]Núria Espuny currently serves as the General Director of Digital Administration of the Government of Catalonia, driving the digital transformation of the Catalonia Public Administration (Generalitat de Catalunya) since June 2020. Among her responsibilities are enhancing and reengineering corporate digital services, promoting interoperability and the exchange of public information, establishing a corporate data governance model, and implementing advanced analytics and artificial intelligence services to enhance public services.

With a background in Telecommunications Engineering and in Electronics Engineering, she complemented her training with a

Postgraduate Degree in Digital Government.

After a brief stint in the private sector, she has developed her entire professional career in the public sector, holding various management and directorial positions. From 2016 to 2020, she held the position of General Director of Transparency and Open Data of the Government of Catalonia.

Over her 30-year career, her expertise includes areas such as computer networks, telecommunications, information systems, e-government, open government, digital transformation, and data governance.[/modal_popup_box]

Ester Manzano Peláez

General Director of Digital Services and Citizen Experience, Government of Catalonia, Spain

[modal_popup_box btnalign="center" titletext="Ester Manzano Peláez" btntext="Read Bio" bodybg="#14145a"]She has worked for more than 15 years in the field of consulting, participating in several strategic projects in the public sector. Her activity has been centered on the strategic definition, the establishment of management models, and the development of facilitating solutions. She has focused on the digital transformation and the co-design of public services, focusing on the user experience.

In June 2018 she was appointed Director General for Digital Administration of the government of Catalonia, and currently she is the Director General for Digital Services and Citizen Experience of the Generalitat of Catalonia.[/modal_popup_box]

Antonio Ibáñez Pascual

General Director of Telecommunications and Digital Administration, Department of Mobility and Digital Transformation, Government of Castilla y León, Spain

[modal_popup_box btnalign="center" titletext="Antonio Ibáñez Pascual" btntext="Read Bio" bodybg="#14145a"]Mr. Antonio

Ibáñez Pascual is a Senior Telecommunications Engineer with a Master's Degree in Leadership and Public Management. He has worked for Telefónica Research & Development and for Red Eléctrica Telecomunicaciones, joining Castilla y León regional government in 2004.

For 17 years, Ibáñez Pascual has been responsible for the Internet presence of Junta de Castilla y León. He has launched and coordinated the Open Government strategy, promoting initiatives such as transparency, open data, participation and social networks, obtaining different awards.

He has also been a professor of different training courses at the School of Public Administration of Castilla y León.

Since 2022, he has been General Director of Telecommunications and Digital Administration in the Regional Government of Castilla y León, and President of the Somos Digital Association.[/modal_popup_box]

María Pérez Naranjo

General Directorate of Digital Strategy, Regional Government of Andalusia, Spain

Full Professor in Political Science and Administration.

Executive President of the Centre for Sociological Research (CIS) (1996/2000)

Member of the European Parliament at the Committee on Industry, Digital, and Energy (ITRE).

Chair of the European Internet Forum (EIF).

Vice President of the European Energy Forum.

Member of the Transatlantic Policy Network.

Member of the European Parliament Special Committee on Artificial Intelligence in a Digital Age.

European Parliament's *rapporteur* on the Data Act; the European Electronic Communications *Code;* the Telecoms Single Market Regulation; the Directive on Security of Networks and Information Systems for the ITRE committee; the Regulation on the Body of European Regulators in Electronic Communications' (BEREC) and the report on Cloud Computing Strategy for Europe, among other dossiers.[/modal_popup_box]

Alejandra Lagunes

Senator, Government of Mexico, Mexico

[modal_popup_box btnalign="center" titletext="Alejandra Lagunes" btntext="Read Bio" bodybg="#14145a"]Alejandra Lagunes Soto Ruiz is a communication graduate from the Instituto Tecnológico de Estudios Superiores de Monterrey (ITESM). She was appointed National Coordinator of Digital Strategy in

2012, where she was responsible for creating and disseminating the National Digital Strategy of the Presidency of Mexico. She has over 13 years of experience in technology companies such as Yahoo, Microsoft, Google, and Televisa. And she is an expert in digital public political communication, after developing and implementing the digital campaign for the governorship of the State of Mexico in 2011, the presidential campaign of 2012, and the presidential campaign of 2018.

Currently, she serves as a Senator in the Republic for the Green Ecologist Party of Mexico. In the Senate of the Republic, she holds the position of Secretary of the Directing Board and the Commission of Science and Technology, and is a member of six other commissions. Lagunes is also the founder of the National Alliance of Artificial Intelligence (ANIA), a multi-stakeholder mechanism with the mission to recognize and strengthen the artificial intelligence ecosystem in Mexico with a comprehensive, plural, and multidisciplinary perspective.[/modal_popup_box]

Paula Llobet

Delegate Councilor for Tourism, Innovation, Technology, Digital Agenda and Investment Capture of the Most Excellent Valencia City Council, Spain

[modal_popup_box btnalign="center" titletext="Paula Llobet" btntext="Read Bio" bodybg="#14145a"]I was born in Valencia on December 27, 1977, and I studied at Colegio Domus and Colegio Esclavas de Valencia.

From a very young age I have had a great vocation for public service and a special concern for helping those most in need. That has led me to be a cooperator in Africa and Latin America for several years.

Studying is another of my great passions. I have a degree in Business Administration and Management, a degree in Law from the University of Valencia and a degree in Political Sciences

and Administration from the Miguel Hernández University of Elche and a Postgraduate Degree in International Cooperation.

I have 17 years of professional experience in the design and management of public policies. Expert in community financing and coordination of local and transnational networks.

The areas in which I have developed my professional career are several, from social welfare, citizen participation, development cooperation, environmental sustainability, R&D&I, health, to urban development and smart cities, strategic planning and management of local, national and European projects.[/modal_popup_box]

Angel Niño

Councilor, Delegate of Innovation and Entrepreneurship Area, Madrid City Council, Spain

Academia & Foundations

Stefaan Verhulst

Co-founder and Chief Research and Development Officer of the Governance Laboratory at New York University, USA

[modal_popup_box btnalign="center" titletext="Stefaan Verhulst" btntext="Read Bio" bodybg="#14145a"]Dr. Stefaan G. Verhulst is an expert in using data and technology for social impact. He is the Co-Founder of several research organizations including the Governance Laboratory (GovLab) at New York University and The DataTank base in Brussels. He focuses on using advances in science and technology, including data and artificial intelligence, to improve decision-making and problem-solving. He is also the Editor-in-Chief of the open-access journal Data & Policy and has served as a member of several expert groups on data and technology, including the High-Level Expert Group to the European Commission on Business-to-Government Data Sharing and the Expert Group to Eurostat on using Private Sector data for Official Statistics. Dr. Verhulst has been recognized as one of the 10 Most Influential Academics in Digital Government globally. He has published extensively on these topics, including several books, and has been invited to speak at international conferences, including TED and the UN World Data Forum. He is asked regularly to provide counsel on data stewardship to a

variety of public and private organizations.[/modal_popup_box]

Tara McGuinness

Executive Director, New Practice Lab at New America, USA

[modal_popup_box btnalign="center" titletext="Tara McGuinness" btntext="Read Bio" bodybg="#14145a"]Tara McGuinness is the Executive Director of the New Practice Lab, a policy and product team focused on getting 3 million low-income families access to benefits. She led the domestic policy team for the Biden Transition and was part of planning for the first 100 days of the Biden presidency. She is obsessed with implementation and making government work, since her days working as a senior advisor to President Obama where she was responsible for leading the effort to sign up millions of Americans for free and low-cost health insurance through Obamacare. In 2021, Tara wrote: *Power to the Public: The Promise of Public Interest Technology*, described by President Obama as, "worth a read for anyone who cares about making change happen."[/modal_popup_box]

David Eaves

Associate Professor of Digital Government and Co-Deputy Director of the Institute for Innovation and Public Purpose at UCL, UK

[modal_popup_box btnalign="center" titletext="David Eaves" btntext="Read Bio" bodybg="#14145a"]David Eaves is Associate Professor of Digital Government and Co-Deputy Director of the Institute for Innovation and Public Purpose at University College London. David's research focuses on the governance of digital public infrastructure and the minimum viable knowledge public administrators need on technology to be effective in a digital era. He is a co-founder of Teaching Public Service in a Digital Age, which seeks to increase the number of public servants receiving digital era public administration skills. He also sits on the investment committee of Co-Develop, a philanthropic fund that supports inclusive, equitable digital

infrastructure projects.[/modal_popup_box]

Arancha González

Dean of the Paris School of International Affairs, France

[modal_popup_box btnalign="center" titletext="Arancha González" btntext="Read Bio" bodybg="#14145a"]Arancha González is **the third Dean of the Paris School of International Affairs (PSIA) at Sciences Po** and the first woman to lead the world's third school for Politics and International Studies.

Prior to joining PSIA, Ms González served as Spain's Minister of Foreign Affairs, European Union and Cooperation (2020-2021). She previously was Assistant-Secretary-General of the United Nations and Executive Director of the International Trade Centre (2013-2020). Between 2005 and 2013 she served as Chief of Staff to the Director-General of the World Trade Organization, Pascal Lamy. Before that she held senior positions at the European Commission in the areas of international trade and development. Ms González started her career as a lawyer in the private sector.

Ms González has been a member of PSIA's Strategic Committee since 2017.

A Spanish national, Ms González holds a degree in law from the University of Navarra and a Postgraduate Degree in European Law from the University Carlos III of Madrid.[/modal_popup_box]

Manuel Muñiz

Provost of IE University, Spain

[modal_popup_box btnalign="center" titletext="Manuel Muñiz" btntext="Read Bio" bodybg="#14145a"]Manuel Muñiz is the Provost of IE University in Madrid and a Professor of Practice of International Relations, with a range of experience in academia. He is also the Dean of IE School of Politics, Economics & Global Affairs, responsible for research and

teaching in public policy and global affairs. His academic work has focused on the fields of innovation and disruption, political economy, and regional and global governance.

From January of 2020 to July of 2021, Muñiz served as State Secretary at the Spanish Foreign Ministry. In this role, he was responsible for leading the ministry's Strategy and Foresight Unit, the Economic Diplomacy Team, and the Communications Department, including the Office for Diplomatic Information. He coordinated Spain's 2021–2024 Foreign Policy Strategy, and led the work on the National Strategy on Technology and Global Order. During this time, he coordinated Spain's OECD Ministerial Presidency of 2020 and was a member of the Prime Minister's COVID-19 task force.[/modal_popup_box]

Marina Manzoni

Policy Officer at the Joint Research Center of the European Commission

[modal_popup_box btnalign="center" titletext="Marina Manzoni" btntext="Read Bio" bodybg="#14145a"]Marina has a mixed background with MAs in Economics and Humanities. She joined the European Commission in 1991 working as *Innovation Officer* for the development of EU policies and related Research and Innovation programmes in support to Applied and Close-to-market Digital Technologies specifically addressing societal challenges, notably in the areas of *eBusiness, eInclusion and eGoverment*.

She moved to the *Digital Economy* Unit of the *Joint Research Center* (JRC) of the European Commission in 2015, where she continued to support the development and management of R&I policies and projects addressing societal needs, currently in the area of *Digital Transformation in support to Public Governance.*

Her research covers investigations on the socio-economic impact of emerging digital technologies, including AI in

support to the deployment and delivery by Public Administrations of innovative Public Services addressing citizens and businesses.[/modal_popup_box]

Mia Marie Tarp Møldrup

Project Manager, UCL Institute for Innovation and Public Purpose

[modal_popup_box btnalign="center" titletext="Mia Marie Tarp Møldrup" btntext="Read Bio" bodybg="#14145a"]Mia's professional journey has spanned across multiple countries but is currently based between London and Madrid. At the moment, she is part of a UCL Institute for Innovation and Public Purpose team dedicated to benchmarking the problem-solving capacities of city governments globally through the [Public Sector Capabilities Index](#) research initiative.

After studying different trajectories within strategic design, innovation, business development, leadership, and politics at Design School Kolding, Parsons School of Design, and Copenhagen Business School, she found a more profound interest in strategy and how to shape and design conditions and artifacts which enables systems to shift.

In addition, she co-founded [AANNDD](#) to explore alternatives to current business paradigms and to shape meaningful restorative alternatives.[/modal_popup_box]

Fernando Fernández-Monge

Senior Associate Bloomberg Harvard City Leadership initiative, Spain

[modal_popup_box btnalign="center" titletext="Fernando Fernández-Monge" btntext="Read Bio" bodybg="#14145a"]Fernando Fernández-Monge is a senior associate with the Bloomberg Harvard City Leadership Initiative, a joint program of Harvard Business School and Harvard Kennedy School, funded by and executed in collaboration with Bloomberg Philanthropies. His

work focuses on the use of data and innovation within the public sector, as well as on fostering and managing technological innovation to make cities more efficient, equitable and responsive to social needs.

He holds an MPA from the Harvard Kennedy School, a Master in Fiscal Policy from UNED and the Instituto de Estudios Fiscales and B.A.s in Law and Political Science from the Autonoma University of Madrid. He has written several teaching cases and academic and policy papers on data governance, public innovation and city leadership and management. His work has been published or featured in Apolitical, Governing, World Economic Forum, El Pais, and Agenda Publica, among others.[/modal_popup_box]

Miguel Ferrer

associate professor at Carlos III University of Madrid. An author of over 100 publications, she has led more than 50 projects in surveillance, sustainability, and space debris. She currently develops deeptech-based products and projects. Asteroid 257336 Noelia Sanchez, is named in her honor for her contributions, and she is recognized as academician of the International Academy of Astronautics.[/modal_popup_box]

Paco Soler

General Manager, ISDI corporate

[modal_popup_box btnalign="center" titletext="Paco Soler" btntext="Read Bio" bodybg="#14145a"]Paco Soler is the Head of ISDI Corporate (pronounced eesdee), the main business school leading the transformation of businesses and people to the digital era.

Paco has held international senior positions for over 20 years in the consulting, software development, automotive and education industries. He has lived in 6 countries and has run projects in more than 30, and his passion is helping people live to their full potential. For 12 years Paco has been the VP for Europe for Urban Science, an automotive consulting company, which has allowed him to experience the challenges and transformations within the formerly-known "automotive industry", now morphing into Mobility. He is an experienced event moderator.

In addition to supporting companies in their transition to the digital world, Paco is also a professor of leadership focused on helping leaders transform themselves and create an environment where change is possible. He is the author of the book "Change your chip" where he talks about how individuals and organisations can adapt to the changes the digital world is bringing.

Paco is a Certified Professional Coach and a Post-Graduate at Neuroscience of Leadership. He works regularly as a Coach at

the High Performance Leadership program at IMD in Lausanne, Switzerland, arguably one the best leadership programs in the world.

Paco is married and the proud father of two girls. As a passionate guitar player and sports person, he is an Ironman Finisher, he's well versed in the subject of failing, not always fast, but certainly often.[/modal_popup_box]

Daniel Abadie

Senior Technical Advisor, Centre for Digital Public Infrastructure

[modal_popup_box btnalign="center" titletext="Daniel Abadie" btntext="Read Bio" bodybg="#14145a"]Dan Abadie is a leading Digital Transformation consultant who has dedicated his career to helping public and private organizations navigate and thrive in the digital age. With a strong background in developing digital strategies and delivering innovative technology solutions, Dan has played key roles in digital transformation at the government level and in the private sector.

In 2024, he expanded his impact by joining the Center for Digital Public Infrastructure (CDPI) as Sr. Technical Advisor, contributing to the design and implementation of Digital Public Infrastructures (DPI) for public organizations.

Previously, from 2020 to 2023, he led LATAM for Public Digital Ltd., a UK-based digital transformation consultancy. During his stay, he supervised data and digital transformation projects for organizations such as the IDB, CAF, UNDP, World Bank and private entities, focusing on Latin America and the Caribbean.

His career in the Argentine government as Undersecretary of Digital Government (2015-2019) marked a milestone in his career. In this period, Dan advised the President on digital

economy and digital transformation issues, led crucial discussions at the 2018 G20, and was in charge of Argentina's Digital Government service. Under his leadership, innovative initiatives were launched such as the Mi Argentina platform, the first digital driver's license, and the citizen's digital wallet, the single domain website Argentina.gob.ar, the virtual assistant Chat Crecer and the Plan National Digital Inclusion.

Before, between 2007 and 2015, he was the head of digital in the Government of the City of Buenos Aires, where he played a fundamental role in the development of the single domain BuenosAires.gob.ar, the "How I Get There" mobile application, the citizen service and the call center telephone line 147.

Internationally recognized for his influence and contribution to digital government, Dan was selected by Apolitical in 2019 as one of the 20 most influential people worldwide in this field. That same year, he won a Webby Award in the health category for the virtual assistant Chat Crecer and stood out as a TEDx speaker, sharing his knowledge and experience in digital transformation and e-government.[/modal_popup_box]

Mark Palmer

VP, Visa Government Solutions, Europe, United Kingdom

[modal_popup_box btnalign="center" titletext="Mark Palmer" btntext="Read Bio" bodybg="#14145a"]Mark joined Visa in April 2022 bringing 35 years of experience delivering digital

solutions in the technology industry across Public Sector markets. He leads the Government Solutions business across Europe, digitizing Government acceptance, disbursements, and commercial payments.

Prior to this Mark established the Public Sector business for Google Cloud across Europe, Middle East & Africa. Moving customers to the Cloud as part of their digital transformation journeys, focusing on delivering better outcomes though data, analytics and AI.

Mark spent 20 years at IBM, where he was their VP Public Sector, Europe. In this role he led large transformation engagements for a number of government customers. Mark ran the UK's Government, Health and Defense businesses over 10 years, and was a member of the IBM UK leadership team.

Mark began his career in the 1980's as a Software Engineer designing and delivering complex real-time systems integration projects for the aerospace industry. He was one of the original start-up members of AeroSystems International; a joint venture between Sema Group and Westland Helicopters working to deliver airborne software systems.

Mark is a member of the IET and Chartered Engineer, as well as being a fellow of the British Computing Society. He has a degree in Electronic Engineering as well as an MBA. He has had business assignments in Italy and Washington D.C.[/modal_popup_box]

Simon Willis

Vice President, Public Sector, Mastercard, United Kingdom

[modal_popup_box btnalign="center" titletext="Simon Willis" btntext="Read Bio" bodybg="#14145a"]Simon manages strategic government partnerships globally at Mastercard as well a number of related innovation projects.

Formerly global head of public sector innovation at Cisco for

many years, Simon has also worked at several GovTech start-ups and twice run UK voluntary sector organisations.

The first half of his career was spent working for the UK Government on digital transformation and social security reform at DWP and at Her Majesty's
Treasury where he worked for Jeremy Heywood as head of financial crime.

He is a widely acknowledged expert on managing complex innovation ecosystems for the public good and has published on the subject as well as addressing the UN, TEDX and many others.[/modal_popup_box]

Solveig Honoré Hatton

Senior Vice President, Public Sector, Europe, Mastercard

[modal_popup_box btnalign="center" titletext="Solveig Honoré Hatton" btntext="Read Bio" bodybg="#14145a"]Solveig has served as the Senior Vice President and lead for Mastercard's Public Sector team in Europe since January 2022. In this role, she is responsible for developing the overall vision and driving the execution of European Public
Sector strategy through public-private partnerships in more than twenty European markets in the areas of digitalization of the public sector and small business,
sustainable and inclusive tourism development and cybersecurity.

Previously, Solveig was the General Manager for Mastercard in France, responsible for the deployment of the strategy and the growth in this country. She worked on a partnership basis with private and public entities, increased Mastercard services footprint and market share while focusing on driving innovation and accelerating digitization of all means of payment in the market.

Solveig has held several positions for Mastercard in France

including Head of Business Development and Head of Mastercard Advisors. Before joining Mastercard in 2012, she worked in consulting for banking and financial institutions in both London and Paris.[/modal_popup_box]

Daniel Nieto Corredera

VP Public Sector, Mastercard

[modal_popup_box btnalign="center" titletext="Daniel Nieto Corredera" btntext="Read Bio" bodybg="#14145a"]Daniel Nieto is, since 2020, responsible for relations with the Government and the public sector for Spain and Portugal. Previously, and since 2014,
he served as Expert in Digital Inclusion and Policies Issues at the United
Nations. During his fifteen years of experience in the technology sector, he
has worked facilitating collaboration between companies and institutions
where the use of innovation to contributes for a better society and the
advancement of the Sustainable Development Goals (Agenda 2030).

An expert in digital inclusion and polices, he is the author of international
flagship publications related to the digital economy, e-commerce and
public-private partnerships published by the United Nations.

Daniel is an economist from the University of Salamanca and postgraduate
training at the London Business School, University of Bern and The World
Bank.[/modal_popup_box]

Rachel Dignam

Benjamin Supple

Founder at SuppleMind. Former Global Head of Publich Sector & Nonprofit Partnerships, Meta Business Messaging (WhatsApp, MSGR, IG), USA

[modal_popup_box btnalign="center" titletext="Benjamin Supple" btntext="Read Bio" bodybg="#14145a"]Ben Supple is an experienced technology. Ben most recently led Global Public and Nonprofit Partnerships for Meta's business messaging group, including WhatsApp, Instagram and Messenger. As the second public policy hire at WhatsApp, Ben helped establish a foundation for its policy function and served as the first-ever global WhatsApp election lead, building the playbook that is still in use today for every major election. Ben helped launch the WhatsApp Business App in 2018 and then the WhatsApp Business API in 2019. In 2020, Ben built a dedicated government and nonprofit partnerships program and global civic engagement team, resulting in thousands of governments and nonprofit organizations onboarded to the API, hundreds of developers supporting government clients and the creation of key programs like WhatsApp's COVID crisis response, global fact checking and Chat for Impact. These partnerships yielded a large proportion of overall API messaging volume, generated

substantial revenue, improved WhatsApp's brand and reputation, and most importantly, helped tens of millions of real people in times of need.

Prior to WhatsApp, Ben served for nearly a decade as a leader in the global strategic consulting firm, the Cohen Group, led by the former US Senator and Secretary of Defense, Bill Cohen. He managed numerous Fortune 100 clients across tech, energy, aerospace, consumer products, and textiles, among other areas, and also led the firm's Americas practice.[/modal_popup_box]

Pilar Roch

Melissa Cohen

Founding Partner of Coral Health Advisors, USA

[modal_popup_box btnalign="center" titletext="Melissa Cohen" btntext="Read Bio" bodybg="#14145a"]Melissa Cohen, JD, MPA, is a founding partner of Coral Health Advisors, a national health policy, strategy and operations consulting firm. She has spent the last 15 years as a senior leader in both government and the private sector leading teams responsible for the design and implementation of alternative payment models to improve patient care. She started her career as an attorney for hospitals and health systems and learned early on how fragmented care and lack of access leads to poor patient outcomes. This led her to pursue a career in health care policy, strategy and operations and she has not looked back. From 2018-2021, Melissa was the Staff Vice President of Payment Innovation and Strategy at Elevance where she led value-based contracting with a focus on provider enablement and alignment to product and benefit design. Melissa was one of the original staff of the CMS Center for Medicare and Medicaid Innovation (CMMI), joining at its inception in 2011.

While there, she drove the design and implementation of payment models across the care continuum. In her last year at CMMI, Melissa was responsible for management of the Center's 10-billion-dollar budget and investment portfolio. Melissa has a JD from Fordham University School of Law, an MPA from the Harvard Kennedy School of Government and a Bachelor's degree from the University of Pennsylvania.[/modal_popup_box]

She holds an MPP degree from the Hertie School and an MPA degree from the London School of Economics. With its products Polyteia enables the Public Sector to process data and digitalize processes for any kind of use case. The company supports already more then 100 public administrations in Germany.[/modal_popup_box]

Paola Santana

Founder & CEO at GLASS, USA

[modal_popup_box btnalign="center" titletext="Paola Santana" btntext="Read Bio" bodybg="#14145a"]Paola Santana is a lawyer, public procurement expert and serial tech entrepreneur, creating the next breakthrough in government systems. She's the founder and CEO of GLASS, a Silicon Valley startup revolutionizing how governments buy with pioneering G-Commerce.

Previously, she co-founded Matternet, a Silicon Valley company pioneering drone logistics networks. Under her leadership, Matternet engaged with The White House, the U.S. Congress, the Federal Aviation Administration (FAA), and NASA to enact the first drone regulation in the United States in 2016, and became the world's first drone delivery platform authorized for permanent operations over a populated city in 2017.

She co-established the Dominican Republic's Constitutional

Court, and worked at the National Elections Court coordinating the Elections Litigation Chamber. She has also collaborated with the World Bank, the Inter-American Development Bank, and the OECD, developing striking public infrastructure projects and strategic partnerships integrating exponential technologies.

She's best known for her ability to create things from scratch at the intersection of the public, private and regulatory domains, and for her track record introducing cutting-edge technologies into highly-regulated markets. Her most recent experience includes co-drafting the public-private partnership enabling the first multi-state Hyperloop system in the United States.

A Fulbright scholar and graduate from George Washington, Georgetown and Singularity University, she's been featured as CNET Top 20 Latin in Tech, Forbes Next 1000, LinkedIn Top Professionals Under 35 in Enterprise Tech, and served as Lead of the UN International Civil Aviation Organization (ICAO) Unmanned Aircraft Systems Advisory Group and appointed member of the first FAA Drone Advisory Committee.[/modal_popup_box]

Marcos Olmos

Partner, Venture Capital Director, Vox Capital

[modal_popup_box btnalign="center" titletext="Marcos Olmos" btntext="Read Bio" bodybg="#14145a"]Marcos has more than 25 years of experience in venture capital, asset management, corporate finance, treasury funding and structured finance. Prior to joining Vox Capital as the Head of VC, Marcos was a partner at Webrock Ventures, a Swedish VC Firm, and prior to that he was the head of asset management at CM Capital. Earlier in his career he worked for several years at Citigroup in NY at the Global Treasury Group and at PWC in Brazil. Marcos holds a B.S. in Business Administration from Universidade de São Paulo and an MBA from NYU's Stern School of Business. He speaks fluently English, Spanish, Portuguese

and German.[/modal_popup_box]

Joseph Tenzin Oliver

CEO, Vision Plan Ltd, UK

[modal_popup_box btnalign="center" titletext="Joseph Tenzin Oliver" btntext="Read Bio" bodybg="#14145a"]Joseph Tenzin Oliver is a social entrepreneur and sustainability leader with over fifteen years of experience. His career to date has involved advising private companies, governments, social enterprises and non-profits on how to innovate and scale using cutting-edge future technologies and ethical practices for economic and societal growth.

His previous work has consisted of multi-project endeavours to explore, understand and create world-class cutting-edge examples of how society can be influenced and shaped to become a more conscious, abundant and positive place for us all to live, work and thrive.

He has worked within a wide range of industries and within three continents (Europe, Asia, and North America) and has represented regional councils and the National Government of the UK in various capacities nationally and internationally.

During his career he has managed and grown multiple companies, creating and directing global change programmes. This has been instrumental in securing hundreds of millions of dollars in technology investment for a range of projects that have seen a significant ROI.

His work in emerging technologies has led him to design, develop, and manage the rollout of high-specification innovation technology departments for some of the top Fortune 500 companies. He is now a recognised advisor in the innovation and sustainability sectors specialising in the management of complex and uncertain innovation growth which results in long-term change and industry

leadership.[/modal_popup_box]

Oleguer Sagarra

Co-founder & Co-CEO, Dribia, Spain

[modal_popup_box btnalign="center" titletext="Oleguer Sagarra" btntext="Read Bio" bodybg="#14145a"]Oleguer Sagarra, co-CEO and co-founder, more than 7 years ago, of Dribia, a data science innovation studio in Barcelona. He has a research background with a PhD in theoretical physics from UB, with a research stay at MIT, which evolved into entrepreneurship. Dribia offers ideation services and creation of custom artificial intelligence tools for companies of all types. In addition to AI projects, he also has experience in data governance, with participation in public projects around data sovereignty, regulation and support to public administrations such as Barcelona or Hamburg for the implementation of data-driven public services.[/modal_popup_box]

Bryan Sivak

Co-Founder and Managing Partner, Evidenced Capital, France

[modal_popup_box btnalign="center" titletext="Bryan Sivak" btntext="Read Bio" bodybg="#14145a"]Bryan Sivak is the co-founder and managing partner at Evidenced Capital, a private market investment firm focused on early-stage healthcare companies benefitting from tailwinds generated by policy and regulatory changes. He currently sits on the Vesta Healthcare and Osso VR boards.

Most recently, Bryan served on the executive leadership team at Centene as Senior Vice President, Technology, Innovation, and Modernization. During this time, he was responsible for enterprise-wide technology strategy and execution, focusing on next-generation products and services.

Previously, he held a dual role at Kaiser Permanente as Vice President of Medicaid Transformation as well as Managing Director of Kaiser Permanente Ventures. As Vice President of Medicaid Transformation, Bryan was responsible for working

across the organization to help lead the transformation of the provision of care and services to its large and growing Medicaid population. As a Managing Director of the KP Venture Fund, he invested in and built venture-backed companies that are

developing the next generation of technologies and services to meet the needs of KP members and the broader healthcare ecosystem.

Prior to Kaiser Permanente, Bryan was the Entrepreneur-in-Residence at the Robert Wood Johnson Foundation. His position was to bring new ideas and perspectives to the work of the Foundation and challenge existing processes and assumptions to help more effectively build a "Culture of Health." He also served as a Senior Fellow at Civic Hall, a New York City-based "community center" for technologists, government innovators, researchers, and others focused on leveraging technology to solve the problems of the many versus the issues of the few.

Before Kaiser, starting in 2012, Bryan served as the Chief Technology Officer at the US Department of Health and Human Services (HHS) in the Obama administration. During his three years in this role, Sivak was responsible for helping HHS harness the power of data, technology, and innovation to improve the

health and welfare of the nation. Prior to HHS, he served as the Chief Innovation Officer for Maryland Governor Martin O'Malley, where he led Maryland's efforts to embed innovation concepts into the DNA of state government.

In 2009, preceding his time with Governor O'Malley, Bryan was Chief Information/Technology Officer for

the District of Columbia. He led a large and diverse team that created a technology infrastructure known for enhancing communication between the district's residents and their government and implemented organizational reforms that improved efficiency, program controls, and customer service.

Prior to his public service, Bryan was a private sector entrepreneur, founding InQuira, Inc. in 1997, a multinational enterprise software company focusing on natural language

processing based knowledge management (acquired by Oracle).[/modal_popup_box]

Matthias Broner

Head of Growth, Latam

[modal_popup_box btnalign="center" titletext="Matthias Broner" btntext="Read Bio" bodybg="#14145a"]Growing real world adoption of blockchain technology in latin america. Focused on helping governments and enterprises unlock new use cases through zero knowledge technology.[/modal_popup_box]

Chuy Cepeda

CEO and Co-founder, OS City, Mexico

[modal_popup_box btnalign="center" titletext="Chuy Cepeda" btntext="Read Bio" bodybg="#14145a"]Chuy Cepeda is a visionary leader navigating the crossroads of technology and humanity, passionately driving innovation for the betterment of society. With excellence honors as a Mechatronics Engineer, a distinguished PhD in Artificial Intelligence, and a Harvard Alumni in Global Leadership for Public Policy; he embodies a unique fusion of expertise, consistently addressing the most pressing public problems through the most promising emergent technologies.

In this era of privacy-invasive economies and heightened governmental control, he delved into decentralization and digital freedom. His company, OS City, spearheads decentralized identity and verifiable credentials implementations in Latin American governments, representing a unique convergence of industries. This distinctive approach has earned him numerous recognitions, such as being a Young Global Leader, one of the 50 most influential people in government disruption, and an Ethereum Foundation Fellow for his instrumental role in onboarding the next billion people into the web3.[/modal_popup_box]

Camila Salazar

Head of Data Analytics and Learning, Open Contracting Partnership, Spain

[modal_popup_box btnalign="center" titletext="Camila Salazar" btntext="Read Bio" bodybg="#14145a"]

Camila Salazar is Head of Data Analytics and Learning at the Open Contracting Partnership, working with partners globally to take a data-driven approach to improve public procurement outcomes. She leads OCP's data use support to partners, developing methodologies on how to use open contracting data and advising on how to improve data quality to achieve specific goals, reforms, research, monitoring, and advocacy. In addition, Camila performs internal data analysis to better track and measure the progress and impact of key OCP interventions and demonstrate the usefulness of procurement datasets to local users and local objectives. She also supports OCP's capacity-building activities. Camila holds an MSc in Applied Social Data Science from the London School of Economics and Political Science as a UK Foreign Office Chevening Scholar and holds a BA degree in Economics, a BA and a Licentiate degree in Journalism and Communications from the University of Costa Rica.
